No Answer	3%

2 responses removed due to blanks or incorrect entry eg 667, 775, 6666 etc

From the list below, please indicate which are the most difficult symptoms and demanding challenges caused by Parkinson's

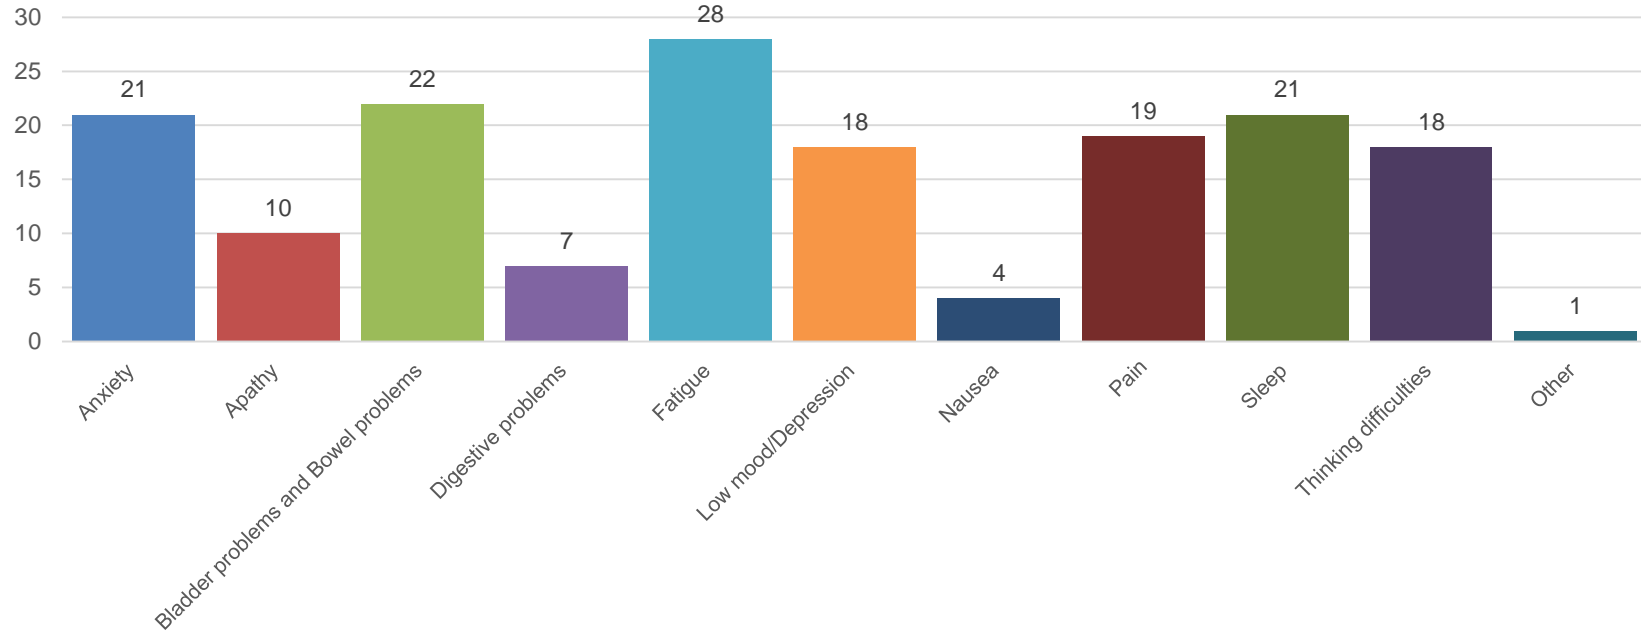

Motor symptoms

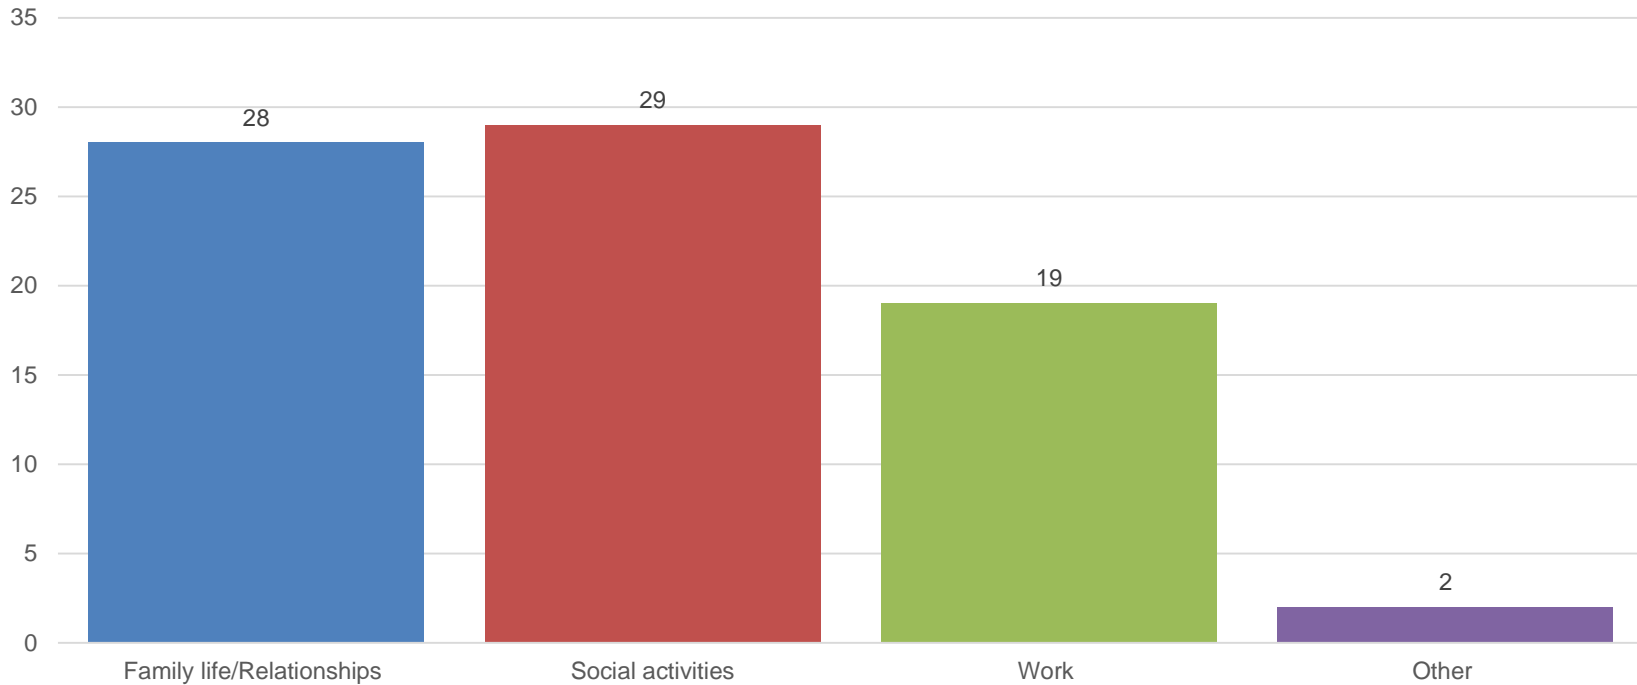

*Wearing off listed as a motor symptom in the EPDA website

From the list below, please indicate which are the most difficult symptoms and demanding challenges caused by Parkinson's

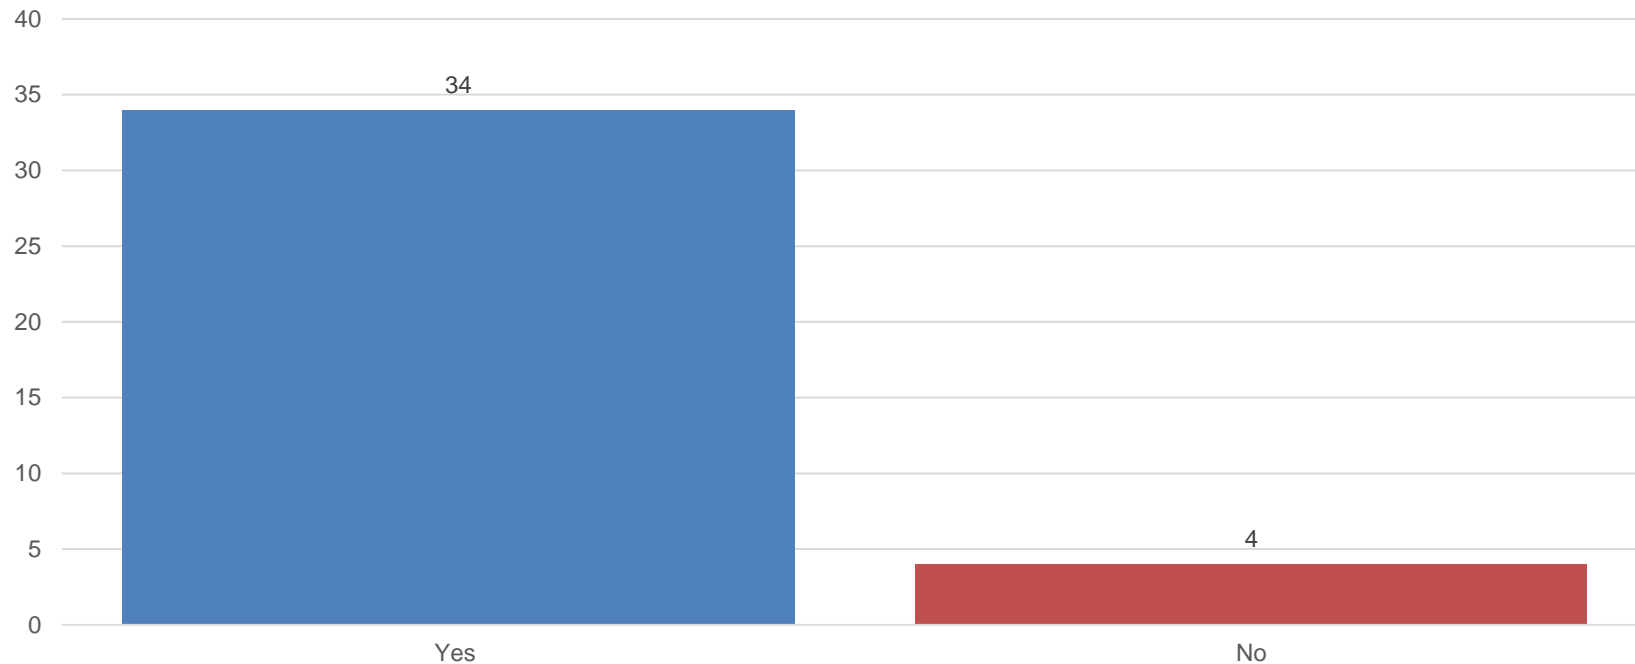

Non-motor symptoms

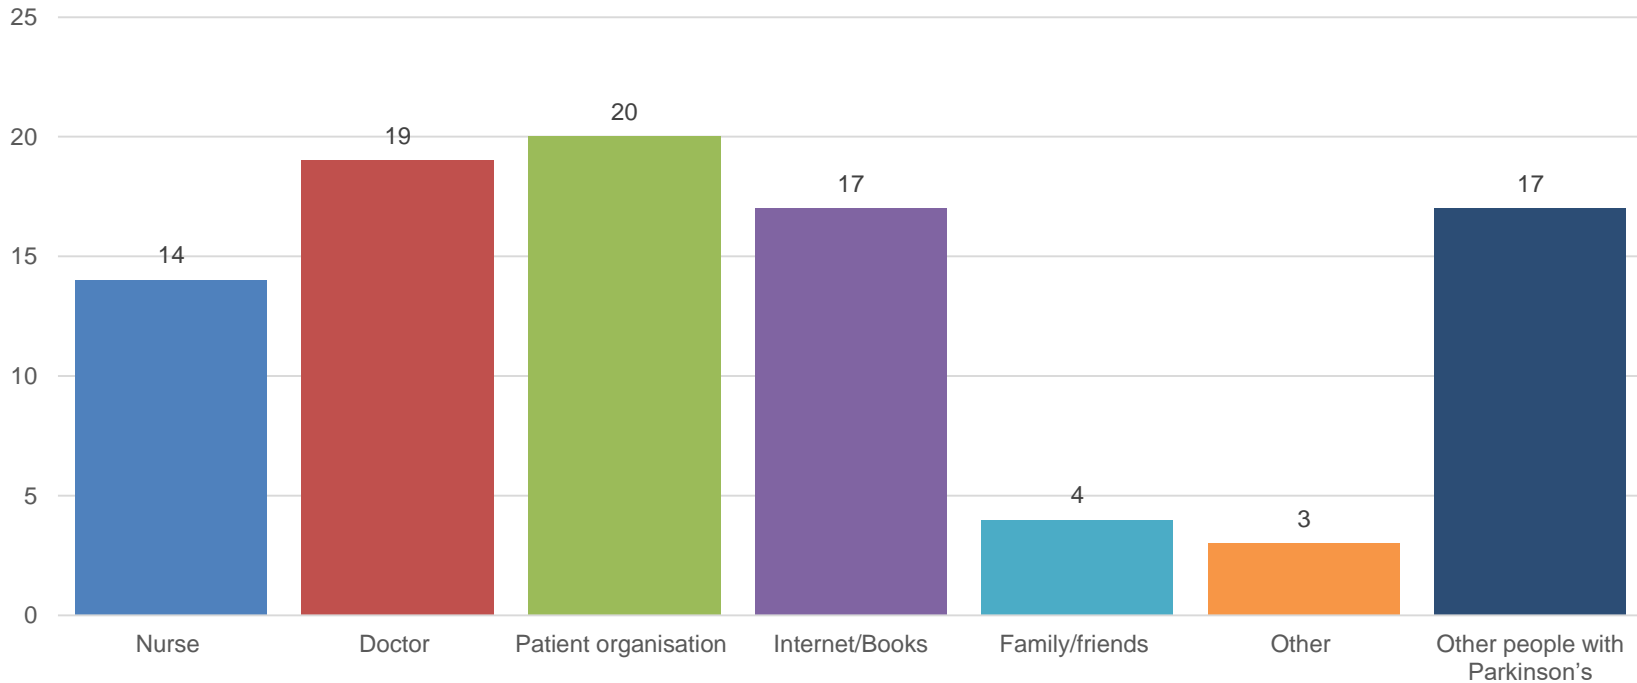

Which of the following activities are either interrupted or interfered with?

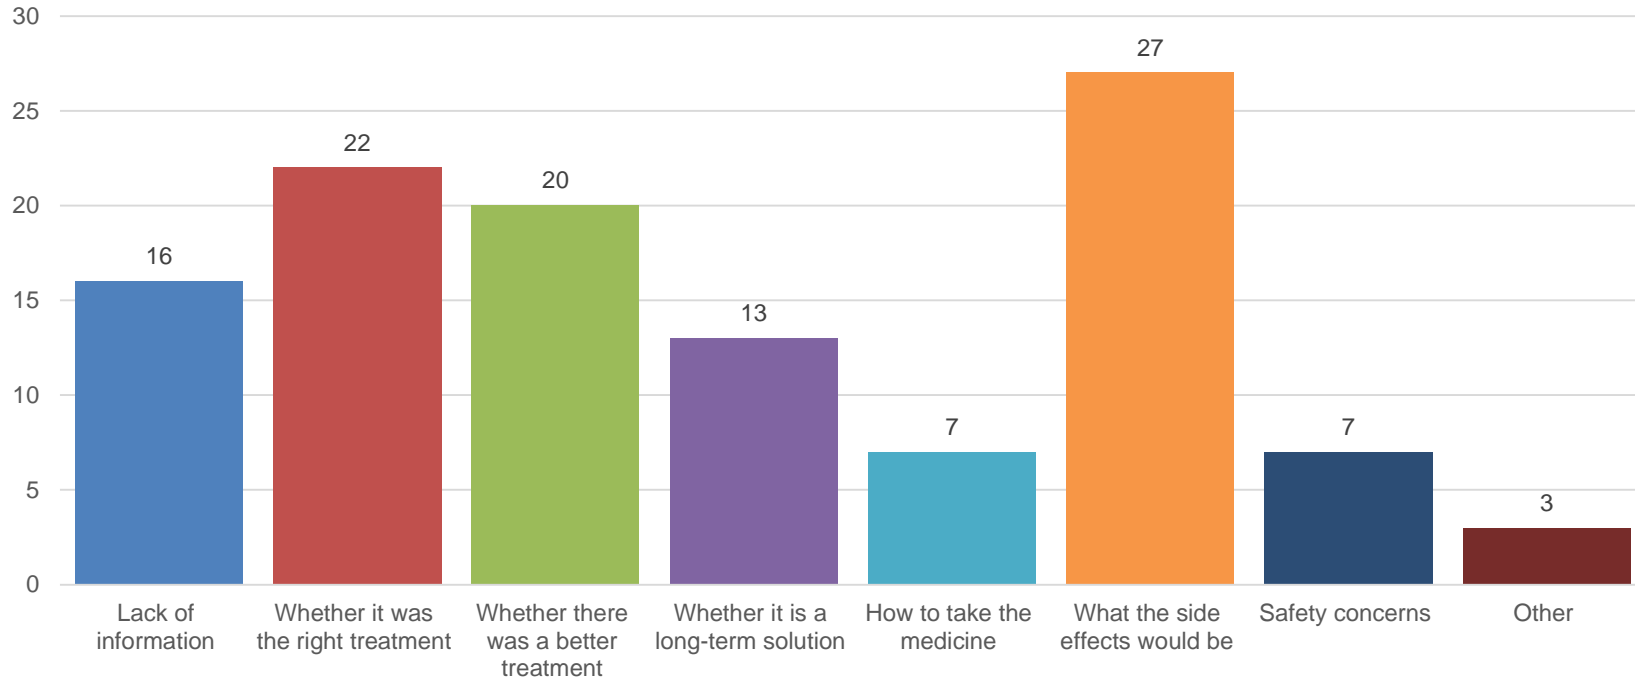

Do you actively seek information about Parkinson's?

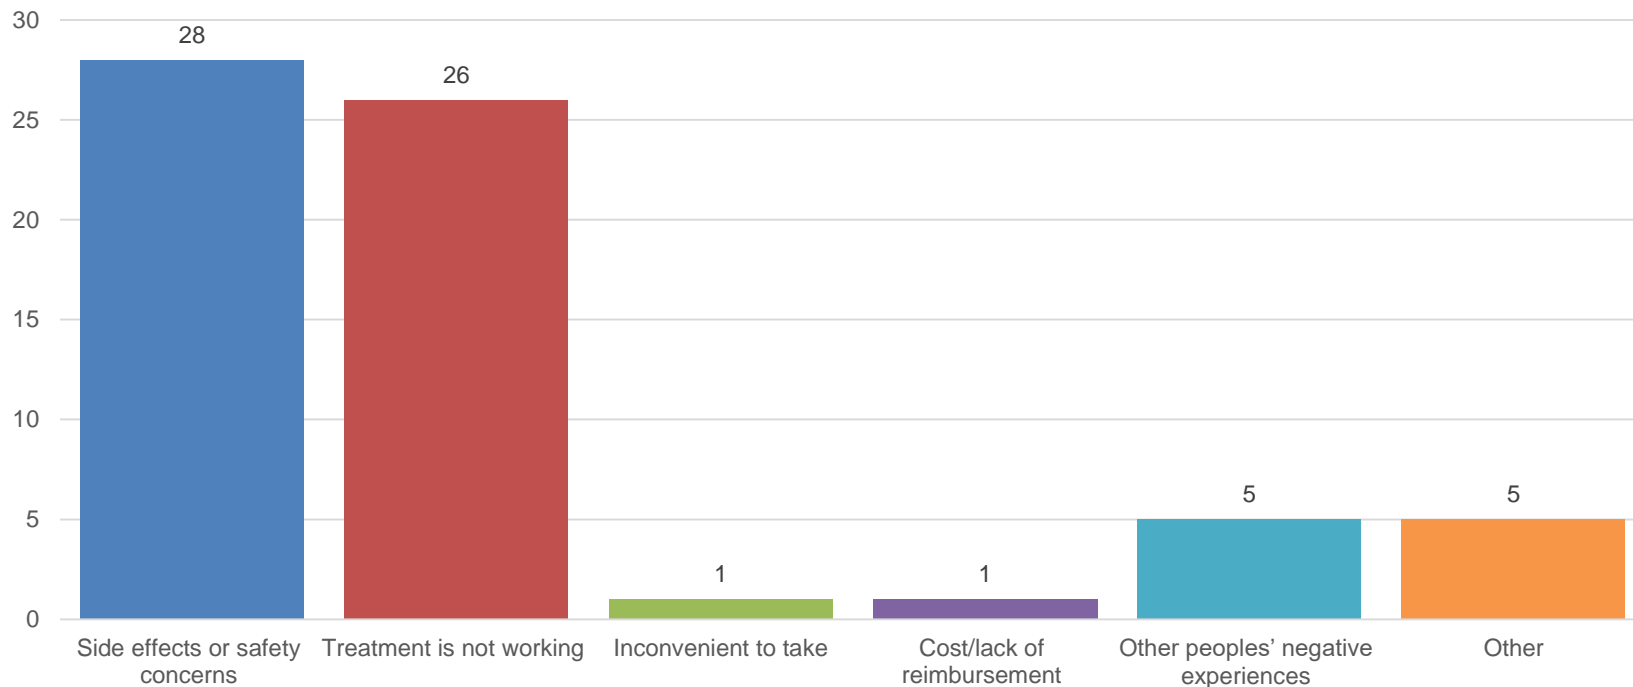

If yes, what are the most reliable sources of information?

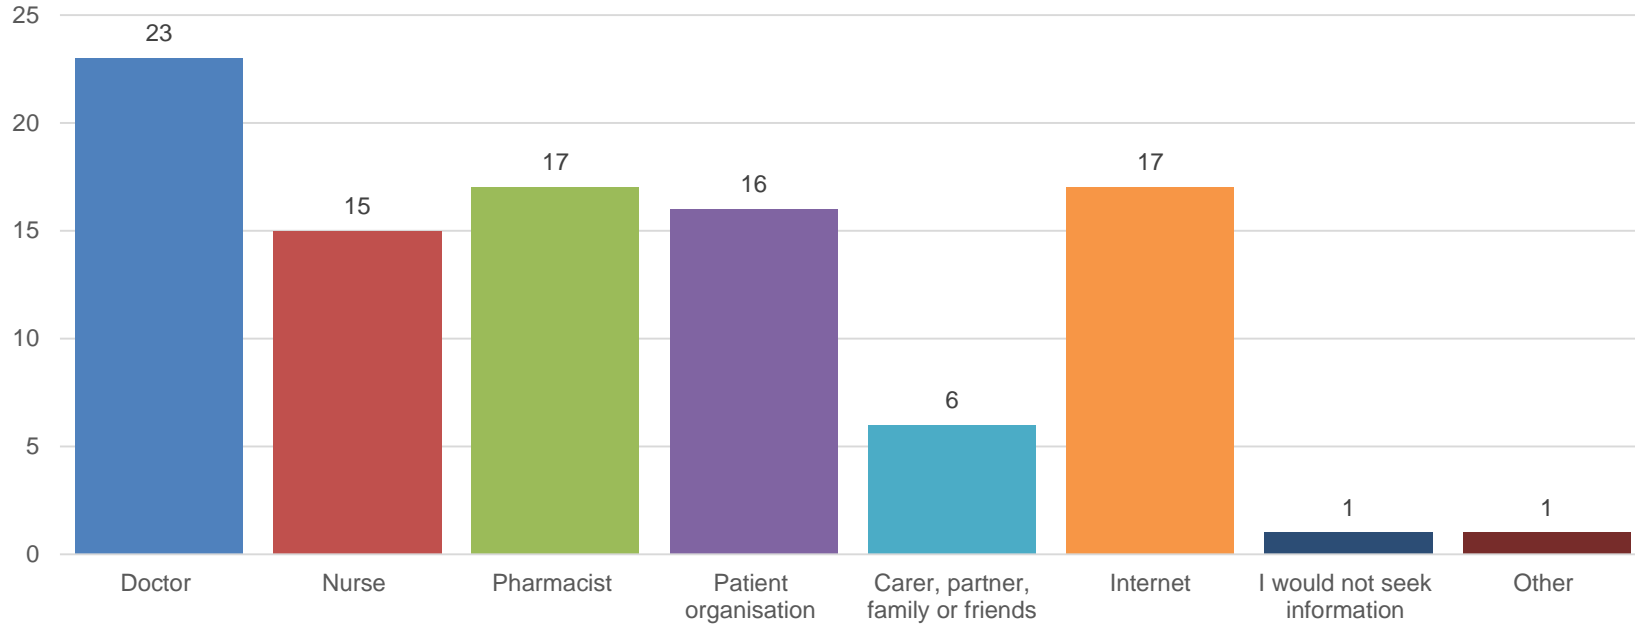

What were your major concerns when the Parkinson's treatment began?

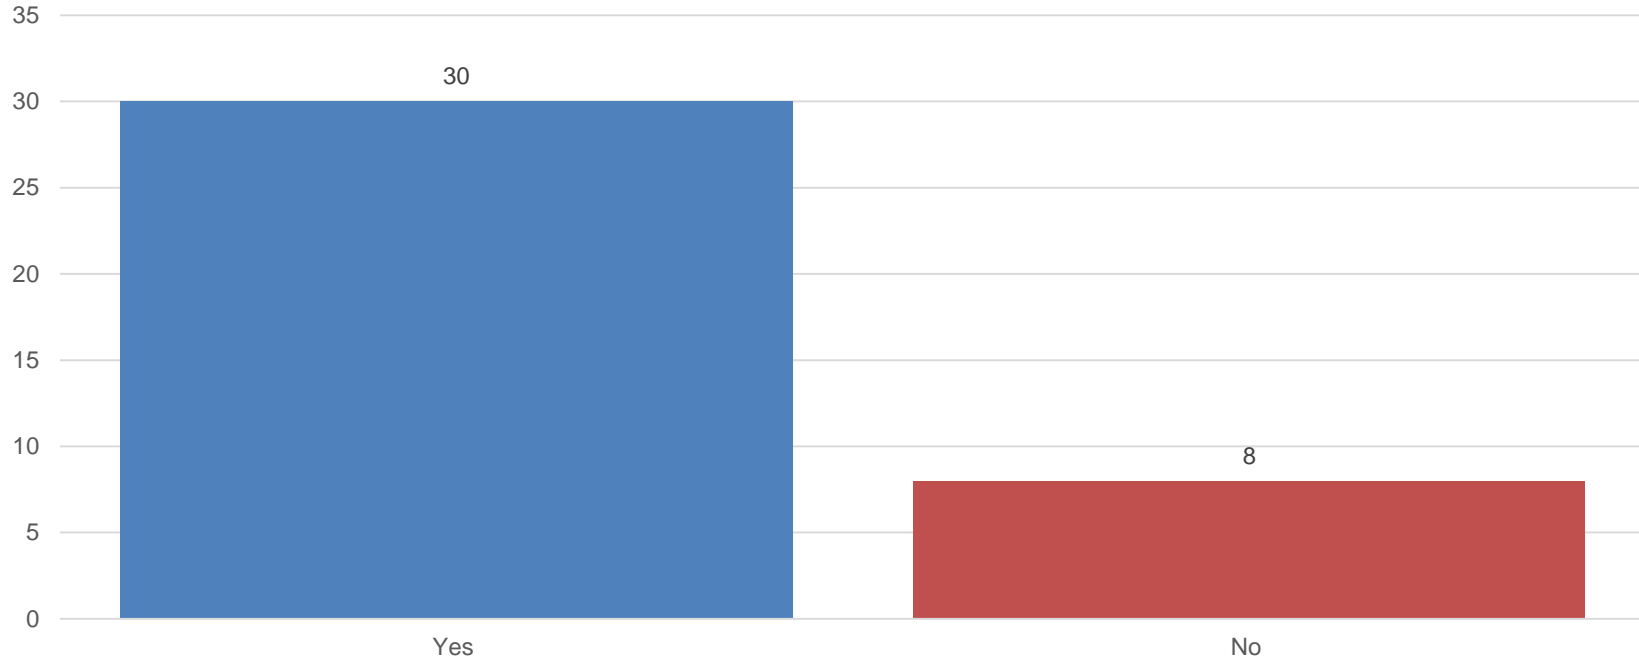

What would be the main reason for stopping a treatment?

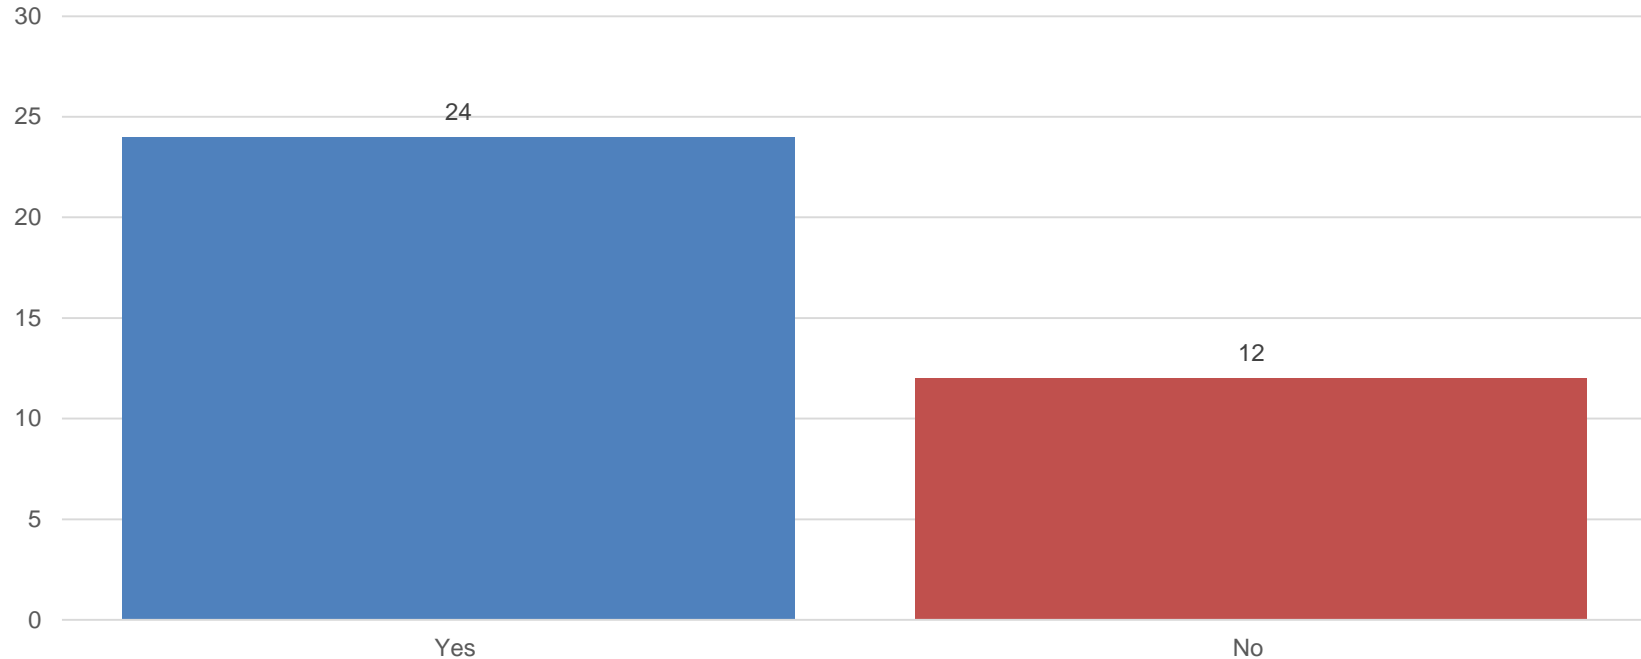

If you had problems or questions about Parkinson's medication or treatment, where would you go to seek information to help you?

Do you feel that you have lost your independence – or will lose it over time?

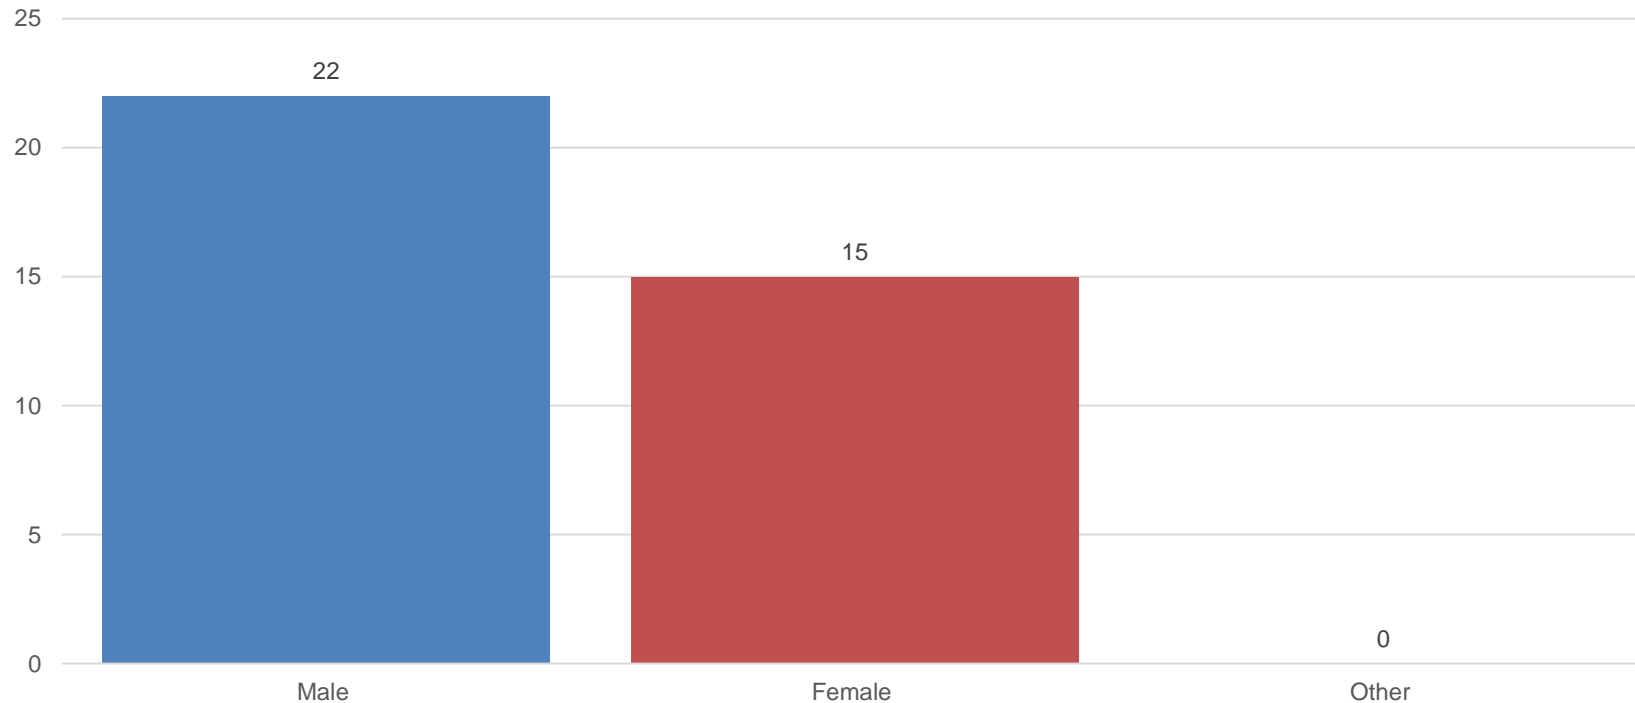

*Have you discussed your concerns with your partner, carer, family and friends?

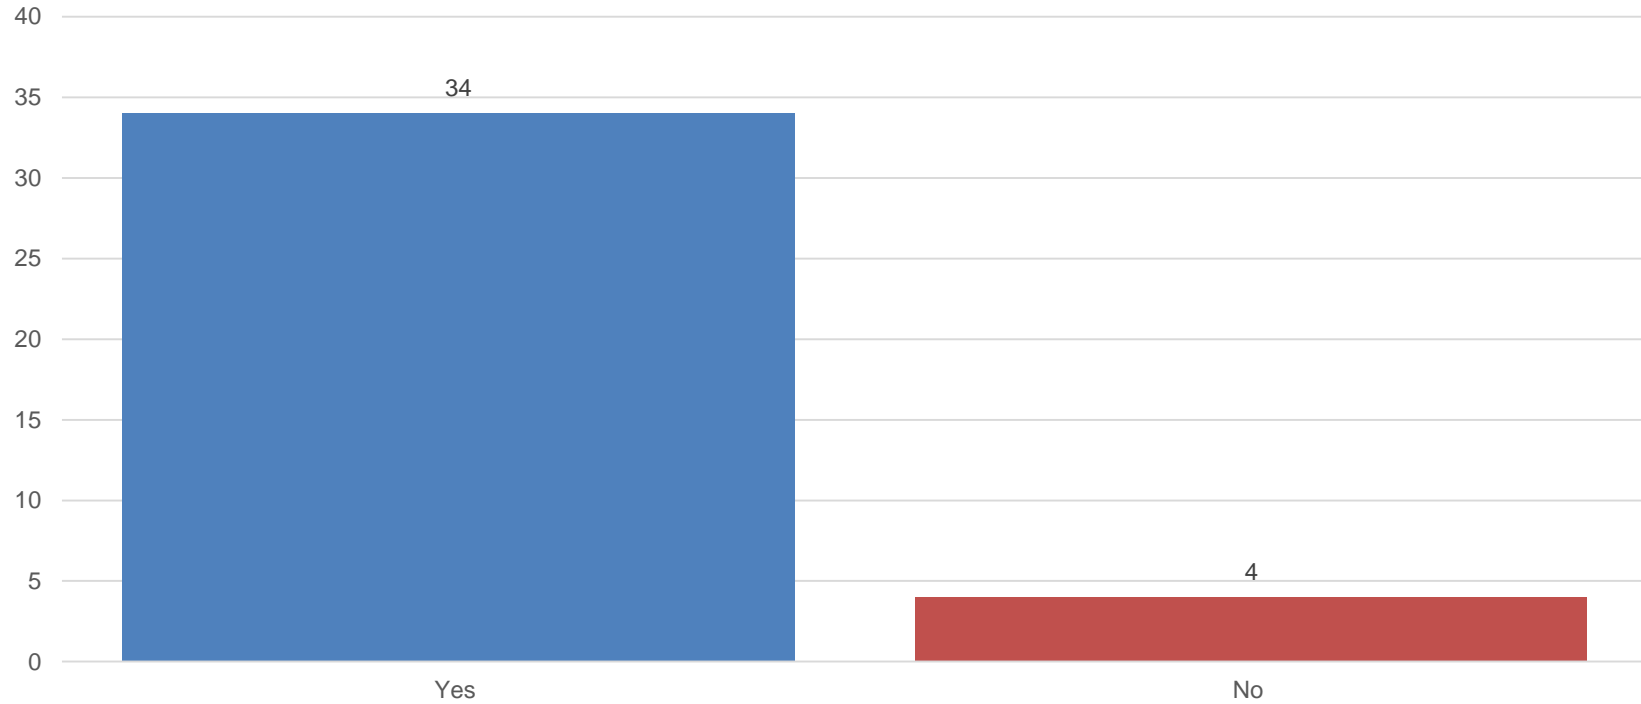

*36 participants completed this question from the 38 responders

*Gender of survey respondents

*37 participants completed this question from the 38 responders

Do you have Parkinson's?

If no, what is your relationship to the person with Parkinson's?
